U.S. Government purchasers may submit purchase orders (minimum $25.00). Government purchase orders should not be submitted in advance of publication (e.g., with advance order form for *Cumulated Index Medicus).*

DEPOSIT ACCOUNT: Having a deposit account generally simplifies the payment process, especially for foreign customers who must otherwise furnish payment by international money order or draft on an American bank. To establish a deposit account send a minimum payment of $50.00 in the form of a check or money order payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Send payments on deposit accounts separate from orders for publications. Give exact name and address of individual or firm in whose name account is to be carried.

PRO-FORMA INVOICE: To obtain, write to: Customer Information Branch, Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Note that requesting this invoice may delay receipt of publication, since shipment cannot be made until the invoice is paid.

DISCOUNTS: A 25% discount is given for orders of 100 copies or more of a single title mailed to one address. Bookdealers can receive this 25% discount regardless of quantity if shipment is made to the bookdealer's place of business.

RENEWAL ORDERS: Approximately three months prior to the expiration of your subscription you should receive a GPO computerized renewal card. If you do not receive this card, place a new order and include with it a mailing label from a recent issue of the publication which you are renewing.

Arranged in a hierarchical manner showing relationships between broader and narrower terms; minor and geographic descriptors are included. (*Tree Structures* also appears as the second section in "black book MeSH," the familiar name for part two of the January *Index Medicus*.)

PB-254-270/GBB — MEDLARS INDEXING MANUAL (Part I): BIBLIOGRAPHIC PRINCIPLES AND DESCRIPTIVE INDEXING, 1977 ($7.25)

Devoted to general bibliographic principles governing the citation of articles in *Index Medicus* and other MEDLARS products. It outlines also the form of descriptive indexing of articles and monographs cited.

PB84-104280/GBB — MEDLARS INDEXING MANUAL (Part II), 1984: INDEXING PRINCIPLES ($16.00)

Devoted to the rules governing the technical analysis and indexing of journals and monographs cited in *Index Medicus* and other MEDLARS products. The Manual contains sections on the following: Indexing Operation, Depth Indexing, IM Headings and Non-IM Headings, Indexed Citation Form, Review Articles, Citation Types, Check Tags, Qualifiers, General Indexing Principles, Categories A-N and Z, and a complete Index to Parts I and II of the Manual.

PB84-120047/GBB MESH TREE ANNOTATIONS, 1984
($10.00)

Designed for medical indexers and searchers, MeSH Tree Annotations has a two-fold purpose: first, to give a general statement on the approach indexers should pursue to a given tree, and second, to advise them of special features within that tree that they should be aware of before indexing or searching.

PB85-232643/GBB PERMUTED MEDICAL SUBJECT HEADINGS, 1986
($14.00)

A computer-generated display of all words contained in NLM subject headings, citation types, check tags, and geographic descriptors, which appear in the 1986 *MeSH Annotated Alphabetic List. Permuted MeSH* takes each significant word that appears in each MeSH term and then lists all the MeSH terms in which that word appears. It is a handy reference for searchers of NLM's online databases as well as of its bibliographic publications such as *Index Medicus.*

PB84-104298/GBB TECHNICAL NOTES: MEDLARS INDEXING INSTRUCTIONS, 1984
($10.00)

This indexing guide is intended primarily for MEDLARS analysts and users. *Technical Notes* discusses practices relating to groups of concepts, lying half-way between the generalities of the *Indexing Manual* and the specificities of MeSH annotations. The source of subjects discussed in *Technical Notes* is queries and problems posed by indexers and searchers.

PB84-120039/GBB TECHNICAL NOTES: MEDLARS INDEXING INSTRUCTIONS,
TUMOR KEY SUPPLEMENT, 1984
($8.00)

This document is intended as a guide to the correct *Medical Subject Heading term* for various histological types of tumor and cancer. This supplement is a revision of the 1975 issue to bring it up to date with the 1984 *MeSH* and the *International Classification of Diseases for Oncology (ICD-O).*

PB86-122512/GBB MEDICAL SUBJECT HEADINGS - SUPPLEMENTARY CHEMICAL RECORDS, 1986
($27.00) ($13.50 microfiche)($27.00 foreign microfiche)

A search tool for *Index Medicus* and MEDLINE users. Contains records on approximately 23,000 chemicals which have been identified in journals indexed for MEDLINE since 1970. *Supplements the D Category of *Medical Subject Headings* ("Chemicals and Drugs") by providing for a given chemical compound such information as the generic name, where possible; synonyms which have been identified in indexed Medline journals; Chemical Abstracts Service, Registry Number or, in the case of enzymes, the Enzyme Commission Number; the *MeSH* heading under which citations on the chemical would appear in *Index Medicus*; and additional information concerning pharmacological activities attributed to the chemical term, indexing notes, and other data considered potentially useful in identifying or characterizing a particular chemical substance.
